

VPHybridCAD, VPmap Series to support AutoCAD® 2008

Munich, May 15, 2007:

Softelec announces the immediate compatibility of all **VPHybridCAD** and **VPmap Series** products for Autodesk's latest **AutoCAD 2008** version. For any hybrid editing and raster to vector conversion tasks with VPHybridCAD V9 and VPmap Series V2 the AutoCAD 2008 support is built-in and does not require any license updates. The products' operation capabilities to run also in "stand-alone" mode remain unchanged.

VPHybridCAD and VPmap Series products are suited to run with all of the AutoCAD 2008 family of products, including AutoCAD® Civil 3D® 2008, AutoCAD® Architecture 2008, AutoCAD® Map 3D 2008.
